Scholarship

Distribution of Scholars (SY 2020-2021 to SY 2022-2023)

The following data show the number of scholars for the undergraduate and graduate level and the percentage of scholarship given in relation to the number of enrolled students for SY 2020-2021 to SY 2022-2023. It also shows the number of students per year level with scholarships and its percentages (for undergraduate level).

The percentage of scholarships given is computed as follows:

- $\% \, Scholarship = \dfrac{Total \, No. of \, Students \, with \, Scholarships}{Total \, Enrolled \, Students} \times 100$

Distribution of Undergraduate Scholars
